

Connecting Learning and Health: Classroom Strategies for Sexuality Education

Sign Up
Now!

►Providing skills based instruction is a critical step in assisting students towards successfully managing their own health. ◀

The “*Connecting Learning and Health*” workshop will...

- ◆ Explore the importance of shifting the emphasis in the classroom from knowing health facts to building health skills
- ◆ Involve participants in the design of classroom tools
- ◆ Be fast paced & interactive
- ◆ Supply participants with information, resources, and strategies for their classrooms
- ◆ Provide an overview of STDs and HIV in Indiana
- ◆ Offer information on current Indiana laws concerning HIV Disease and sexuality education
